

Health in All Policies Trainers' Meeting

24-26 March 2015 -- Starling Conference Center – Geneva, Switzerland

Participants' Profile Survey results

By 20th of March, 25 out of 26 participants answered on survey questions (96%).

According to the survey 1st question, only two participants will not provide trainings directly:

- Lucinda Cash-Gibson – involved in the IESE-CRHIM Scientific Coordination team aiming to build sustainable research capacity for SDH. She will report her supervisor the outcomes of the HiAP trainers meeting;
- Charlotte Marchandise – Franquet – she will provide results of HiAP Trainers' Meeting via meetings and seminars for the members of the French Healthy City Network, also possible invitation to the partner institutions such as National School of Public Health and during national congress next fall.

The 2nd question of the survey brought following results about participants' personal experiences in training health professionals in the areas related to Health in All Policies, health equity and social determinants of health:
