

Individual Action Plans

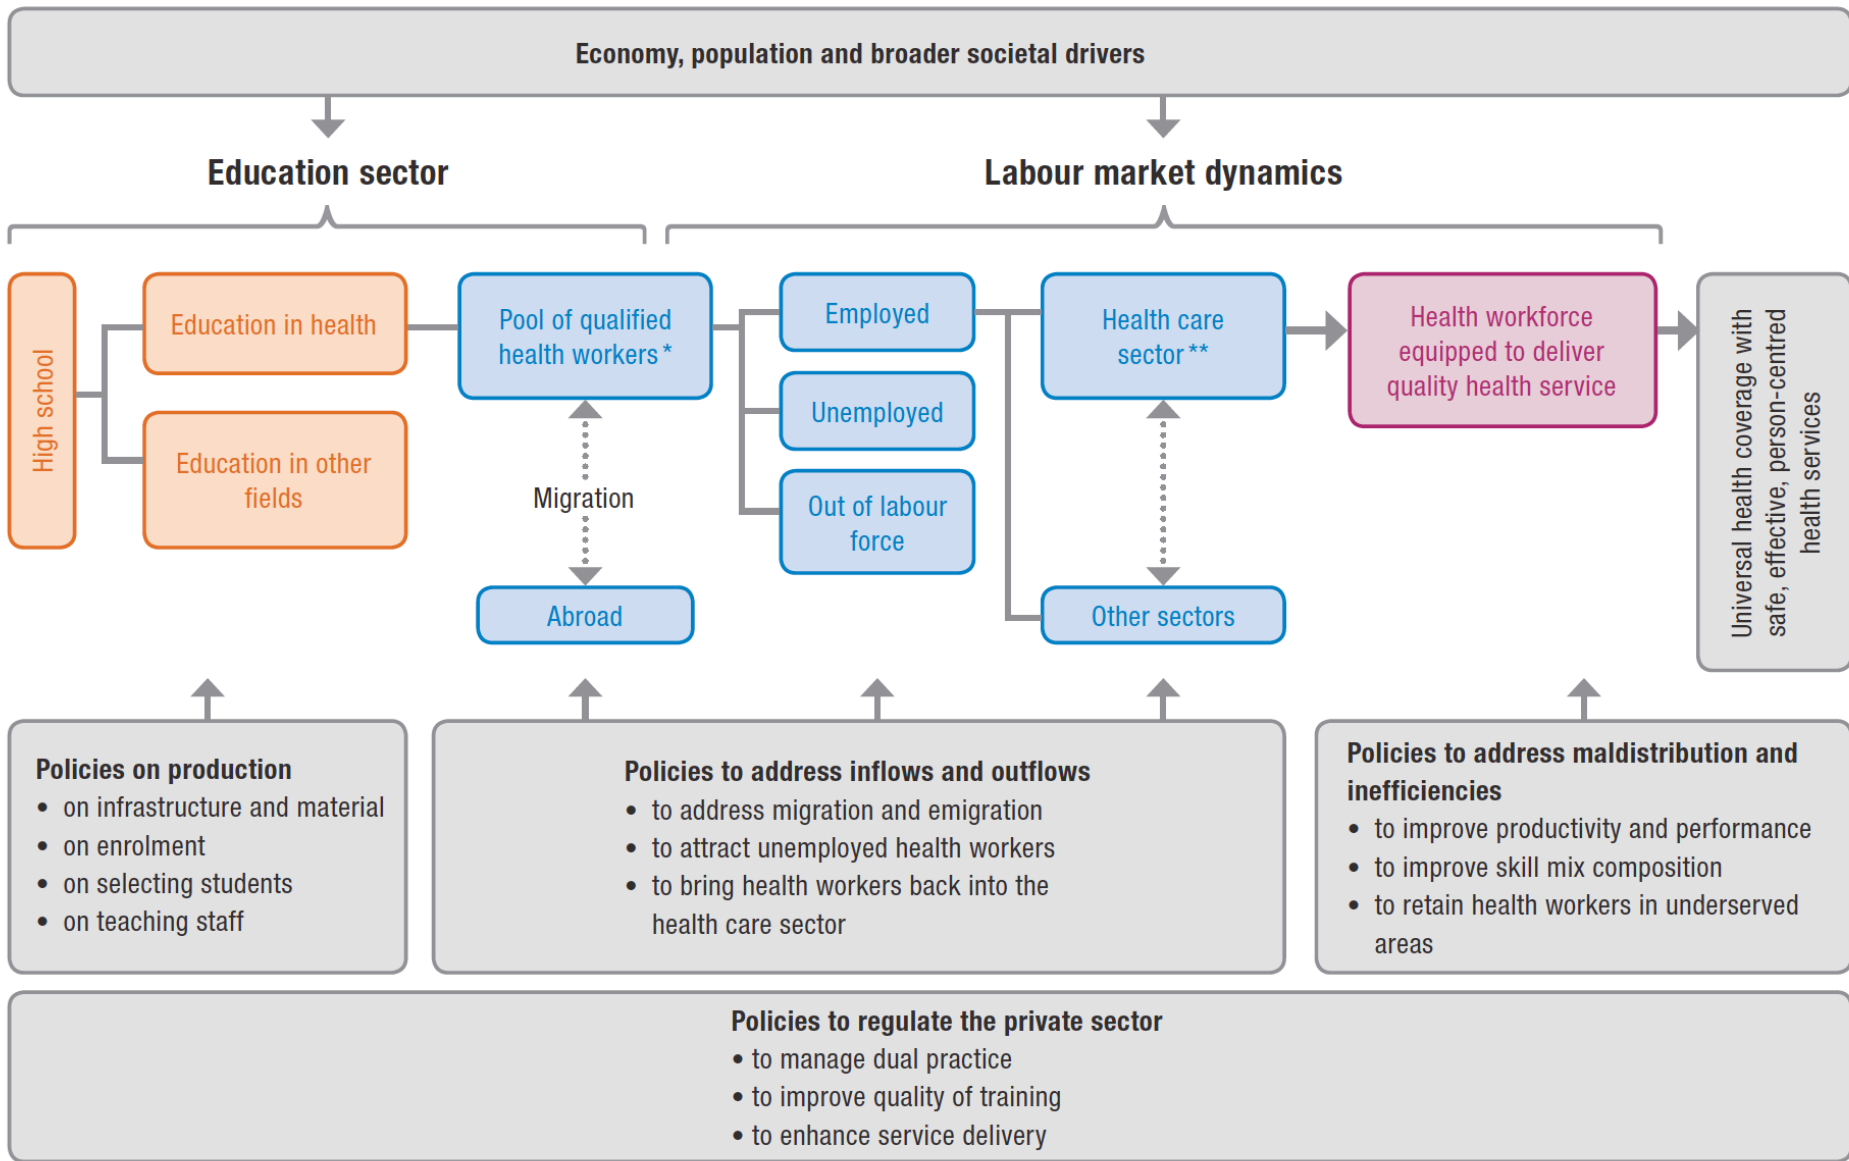

Julian Fisher, Nicole Valentine

WHO National Health Workforce Accounts, NHWA

The National Health Workforce Accounts is a system by which countries progressively improve the availability, quality, and use of data on health workforce through monitoring of a set of indicators to support achievement of Universal Health Coverage, Sustainable Development Goals and other health objectives

Indicator name	Existence of national education plans for the health workforce, aligned with the national health plan and the national health workforce strategy/plan (Yes/No/Partly)
Numerator	Not applicable
Denominator	Not applicable
Disaggregation	Not applicable
Definition	<p>The following questions should guide a response to this indicator:</p> <ol style="list-style-type: none"> 1. Do education plans for the HWF match health worker competencies with population, health systems, and health labour market needs? 2. Do plans take into account efforts to scale up transformative education and training? 3. Do recognized institutes such as national public health institutes, universities and collaborating centres offer training courses on the implementation and monitoring of Health in All Policies and related concepts? 4. Are strategic steps taken when considering and taking into account the workforce market needs and absorptive capacities for the education plan development?

Dimension: Accreditation

Indicator name | Existence of national and/or subnational standards for the social determinants of health in accreditation mechanisms (Yes/No/Partly)

Next steps –taking the workshop agenda forward:

- Individual actions plans; webinars / case studies (Chapters)
- Understand and measure the problem; WHO Data Hub TWG on Education
- ASPPH Task Force / WHO TAG
