# Roles for Civil Society in HiAP

Source: Diagram adapted from the Texas Politics Project

# National Health Assembly

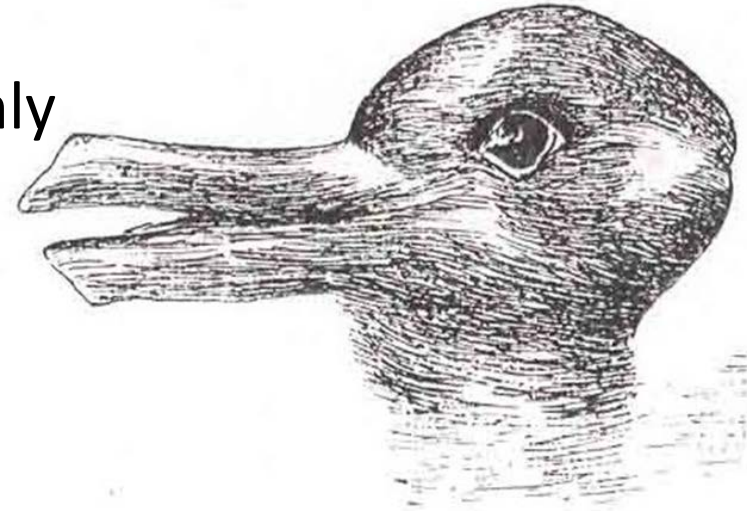

# Keys for HiAP

Let's see **Health & Policy** with new eyes

- Health  $\neq$  Biomedical Framework only
- Health  $\neq$  Disease Oriented Approach only
- Policy  $\neq$  State Owned Process only
- HiAP = Mutual Respect and Trust between the government and civil society

# Contributing Factors

## For Civil Society Role in HiAP

1. Expanding the framework of health
2. Build a neutral space to welcome everyone on board
3. Creating information system
4. Building respect and trust between civil society and health sector /government sector

Thank you
