

Reflections on social and environmental determinants of health

Aleksandra Kuzmanovic

Workshop Session 1.1.2. Introduction to the Social Determinants of Health,
Sustainable Cities and Health in All Policies – core concepts

1 Improve Daily Living Conditions

the circumstances in which people are born,
grow, live, work, and age

2 Tackle the Inequitable Distribution of Power, Money, and Resources

the structural drivers of those conditions of
daily life – globally, nationally, and locally

3 Measure and Understand the Problem and Assess the Impact of Action

expand the knowledge base,
develop a workforce that is trained in the social determinants of health,
and raise public awareness about the social determinants of health

Group work

20
minutes

1. Identify health challenges in urban setting from the video

2. Identify 2-3 solutions from the Commission on Social Determinants of Health recommendations

3. Share arguments for chosen solutions
